

Section A: Concept Application

Q.1) Given the café’s values (organic, calm, sustainable), select ONE color palette and justify:

❖ A color palette is one of the most important elements of brand identity because colors influence how customers feel about a business. Since the café's values are **organic, calm, and sustainable**, the colors should reflect nature, freshness, comfort, and environmental responsibility.

Selected Color Palette

Color	Hex Code	Purpose
Forest Green	#2E6F40	Nature and sustainability
Warm Beige	#E8DCC4	Comfort and warmth
Earth Brown	#7A5C3E	Organic and natural feel

Soft Cream	#F7F3EB	Clean and calm atmosphere
---------------	---------	---------------------------

A) Why these colors fit the brand psychology.

1. Forest Green (#2E6F40)

Green is strongly associated with nature, growth, health, and environmental awareness. It is commonly used by eco-friendly brands because it creates a sense of freshness and sustainability.

Psychological Impact:

- Represents nature and plants.
 - Suggests freshness and healthy products.
 - Creates trust and environmental responsibility.
 - Helps customers associate the café with sustainability.
-

2. Warm Beige (#E8DCC4)

Beige is a soft and neutral color that creates a cozy and welcoming feeling. It gives the impression of natural materials such as recycled paper, wood, and organic packaging.

Psychological Impact:

- Creates warmth and comfort.
 - Makes customers feel relaxed.
 - Supports the café's organic image.
 - Adds a natural and handmade appearance.
-

3. Earth Brown (#7A5C3E)

Brown is connected to wood, soil, coffee beans, and nature. It reflects stability and authenticity, making it ideal for a café brand.

Psychological Impact:

- Symbolizes reliability and stability.
 - Creates a connection with coffee and organic products.
 - Makes the brand feel authentic and trustworthy.
 - Enhances the eco-friendly image.
-

4. Soft Cream (#F7F3EB)

Cream is a light neutral color that provides a clean and peaceful background. It improves readability while maintaining a natural look.

Psychological Impact:

- Creates calmness and simplicity.
 - Gives a clean and professional appearance.
 - Makes other colors stand out.
 - Improves customer comfort while reading menus and advertisements.
-

B) Where each color should be used (logo, menu, signage)

➤ Forest Green

Applications:

- Café Logo
- Store Signage
- Website Headers
- Social Media Graphics

Reason:

Green immediately communicates sustainability and environmental awareness.

➤ Warm Beige

Applications:

- Menu Backgrounds
- Packaging Design
- Wall Decorations
- Website Sections

Reason:

Creates a welcoming and comfortable atmosphere.

➤ Earth Brown

Applications:

- Typography
- Icons
- Decorative Elements
- Coffee Product Labels

Reason:

Strengthens the organic and coffee-related identity of the brand.

➤ Soft Cream

Applications:

- Website Background
- Printed Menus
- Promotional Materials
- Interior Design Elements

Reason:

Provides cleanliness and improves readability.

Q.2) Choose one serif and one

sans-serif font for : a. Headings

b. Body text

c. Explain where each will be

Typography plays an important role in communicating a brand's personality and improving readability.

For an eco-friendly café, the typography should feel natural, professional, friendly, and easy to read.

➤ **Serif Font for Headings**

Font: Merriweather

Merriweather is a serif typeface known for its elegance and readability. The small decorative strokes (serifs) create a sophisticated and trustworthy appearance.

Why Merriweather?

- Looks professional and premium.
- Creates a warm and welcoming feeling.
- Suitable for café branding.
- Easy to read even at large sizes.

➤ Sans-Serif Font for Body Text

Font: Montserrat

Montserrat is a modern sans-serif typeface with clean and simple letterforms.

Why Montserrat?

- Highly readable.
- Modern and clean appearance.
- Works well in menus and websites.
- Complements the traditional look of Merriweather.

A. Application of Serif Font (Merriweather)

Headings

Used for:

- Café Name
- Menu Categories
- Posters
- Advertisements
- Website Titles
- Signage

Example

ORGANIC CAFÉ

Fresh Coffee & Healthy Snacks

The heading immediately attracts attention while maintaining an elegant appearance.

B. Application of Sans-Serif Font (Montserrat)

Body Text

Used for:

- Menu Descriptions
- Product Information
- Website Content
- Promotional Text
- Customer Information

Example

Our coffee beans are organically sourced from sustainable farms and roasted to perfection.

The simple letterforms make the text easy to read.

Why This Font Combination Works

The combination of Merriweather and Montserrat creates a balance between:

- Tradition and Modernity
- Warmth and Professionalism
- Elegance and Simplicity

This reflects the values of an eco-friendly café perfectly.

Q.3) A cluttered poster is provided.

- a. Identify 3 design principles violated**
- b. Redesign the layout using only ONE principle (sketch required)**

A cluttered poster contains too many elements competing for attention, making it difficult for viewers to understand the message.

A) Identify Three Design Principles Violated

1. Alignment

Alignment refers to arranging elements in an organized manner.

Problem:

- Text and images are scattered.
- Elements do not follow a visual structure.
- The design appears messy.

Effect:

Viewers struggle to understand the content quickly.

2. Visual Hierarchy

Visual hierarchy determines which information should attract attention first.

Problem:

- All text appears similar in size.
- No focal point exists.
- Important information does not stand out.

Effect:

Viewers cannot identify the most important message.

3. White Space

White space is the empty area between design elements.

Problem:

- Elements are crowded together.
- No breathing room between sections.

Effect:

The design feels overwhelming and difficult to read.

B) Redesign Using One Principle: Visual Hierarchy

Objective

Improve readability by creating a clear order of importance.

★ How Visual Hierarchy Is Applied

REDESIGNED LAYOUT SKETCH (Using Visual Hierarchy)

1. LEVEL 1: MAIN HEADING

"ECO CAFÉ" is the largest text and first thing viewers notice.

2. LEVEL 2: IMAGE

The large coffee image is the focal point that supports the brand theme.

3. LEVEL 3: SUPPORTING INFORMATION

Important details about the café are clear and easy to scan.

4. LEVEL 4: CONTACT INFORMATION

Contact details are least emphasized but still easy to find.

BENEFITS OF THIS REDESIGN

- ✓ Clear visual hierarchy
- ✓ Better readability
- ✓ More white space
- ✓ Professional and clean look
- ✓ Stronger eco-friendly brand identity
- ✓ Better customer engagement

Level 1: Main Heading

"ECO CAFÉ"

- Largest text size
- First element viewers notice
- Establishes brand identity

Level 2: Image

- Large coffee image placed centrally
- Acts as the visual focal point
- Supports the café theme

Level 3: Supporting Information

- Information about products and values
- Medium-sized text
- Easy to scan

Level 4: Contact Information

- Smallest text size
 - Appears last because it is less important
-

Benefits of the Redesigned Poster

1. Better readability.
2. Strong visual focus.
3. Clear communication of information.
4. Professional appearance.
5. Improved customer engagement.

6. Stronger eco-friendly brand identity.
